Battling State and National Teachers Unions for the Heart and Soul of Our Kids is a must-read for parents, educators, and anyone who cares about the future of our children.

Kengor argues that teachers unions have become a major obstacle to educational reform. They are more interested in protecting their own power

and privileges than in ensuring that our children receive a quality education.

Kengor provides a damning indictment of the teachers unions, documenting their history of corruption, cronyism, and incompetence.

- The teachers unions have fought against every major education reform, from school choice to merit pay.
- The teachers unions have supported policies that have led to the decline of our public schools, such as Common Core and critical race theory.
- The teachers unions have protected bad teachers from being fired, even when they have been accused of sexual misconduct or other serious crimes.

Kengor's book is a call to action for parents and educators who are fed up with the status quo. He offers a blueprint for reforming the teachers unions and restoring our public schools to their former glory.
