## **A Comprehensive Guide to Non-Verbal Communication**

Author Lori Frost, a renowned speech-language pathologist, provides a comprehensive overview of non-verbal communication for children with autism. She explains the importance of understanding body language, facial expressions, gestures, and vocalizations. Through engaging stories

and real-life examples, Frost demonstrates how these non-verbal cues can be used to convey messages and build relationships.

## **Empowering Children with AAC**

For children who are unable to speak verbally, augmentative and alternative communication (AAC) devices can be life-changing. *Burp It, Belch It, Speak It, Squeak It* provides a detailed guide to AAC, including different types of devices and strategies for selecting and implementing the best solution for each child. Frost also addresses the challenges and benefits of using AAC, empowering parents and educators to make informed decisions.

## **Evidence-Based Interventions**

The book is grounded in the latest research and evidence-based practices. Frost presents a range of proven interventions, such as:

- **Picture Exchange Communication System (PECS):** A visual communication method that uses picture cards to represent objects, actions, and emotions.
- **Sign Language:** A system of gestures that can be used to communicate with deaf and hearing individuals.
- **Speech Therapy:** Techniques to improve speech production, articulation, and language comprehension.
- **Social Skills Training:** Strategies to help children with autism interact with others in a positive and meaningful way.

## **A Valuable Resource for Parents and Educators**

*Burp It, Belch It, Speak It, Squeak It* is an indispensable resource for parents, educators, and healthcare professionals who support children with autism.
