Hartmann argues that the rise of big business has led to a system that is rigged against the average American. He traces the history of corporate consolidation, from the robber barons of the late 19th century to the modern-day monopolists like Our Book Library and Google. He shows how these corporations have used their power to crush competition, exploit workers, and manipulate the political system.

The result, Hartmann argues, is a system that is increasingly unequal and unjust. The middle class is shrinking, while the gap between the rich and the poor is growing wider. The American dream of upward mobility is becoming increasingly out of reach for most Americans.

Hartmann's book is a powerful indictment of the corporate greed that has destroyed the American dream. He offers a clear and concise analysis of the problem, and he provides a number of concrete solutions that we can implement to rebuild the middle class and create a more just and equitable society.
